**TOWN OF ST. JAMES  
COMPREHENSIVE PLAN COMMITTEE**

***MISSION STATEMENT***

The Comprehensive Plan Committee (CPC) will prepare an assessment of the key issues that the Town and its residents will face over the next five years (2021-2026). While the primary purpose of the Comprehensive Plan is to provide an assessment that will help the Town Council in its future decisions and policies, a secondary purpose will be to provide St. James residents with information about the Town. A key factor will be the anticipated widening of NC 211 and the likely development of land adjacent to the Town. The CPC will survey the residents of the Town to determine their interests and concerns. The Committee will coordinate closely with other major entities such as the POA and the St. James Fire Department. The CPC's goal is to complete the Comprehensive Plan for presentation to the Town Council in early 2021.
